

Parents,

This week 1<sup>st</sup> graders will explore timelines during our module studies. To better understand how a timeline shows the order of events, students will be creating a timeline of THEIR life and events that have taken place through photos and dates of the events. We have current photos of the students as first graders from the 1st day of school, but we need your help to collect **COPIES** a BABY photo, and 2 other dated photos showing 2 separate events that they have experienced **BEFORE** coming to first grade. These can be events such as vacations, loosing teeth, riding a bike without training wheels, getting a pet, birth of a sibling and so on. These photos will **NOT** be returned.

\*Please send the photos back to school in an envelope or zip lock bag labeled with your child's name by **AUGUST 21<sup>st</sup>**.

Checklist for photos to include and return:

- Baby Photo**
- 1st life event photo (dated on back)**
- 2nd life event photo (dated on back)**
